

NFF was organized in August 1993, used to be a division of Network Trading (Phils.) Inc., the company became one of the leading providers of engineering solutions to filtration and emission problems for major industries in the Philippine market. With its strong links to world renowned manufacturers of filtration products both in wet and dry applications, its position in the market has certainly been clearly defined. Manufactured products such as Bag Filter Dust Collectors, Filter Bags, Cages and Accessories, Filter Cloths, Micron Rated Filters, Air Filters, and Airslide Canvas.

Covering basically the entire manufacturing industries NFF added to its product lines the following related traded products such as Pluspoint Filter Press and Klinkau Plates, Cooling Towers, Ecofine Pressure Vessels, Reitz Fans, KC Cottrell Electro Static Precipitator and spare parts, Goyen and Mecair Dust Collector Cleaning System Components, Emission Monitors and Gas Analyzers are supplied to the following industries :

Dust Collector

Airsweep

Reitz Fan

Cooling Tower

Filter Bags

Air Filters

Filter Press

Pressure Vessels

FILTRATION EQUIPMENT

- NFF Bag Filter Pulse Jet Dust Collectors
- KC COTTRELL Electrostatic Precipitators
- GOYEN Dust Collector Cleaning System
- GOYEN Gas Analyzers and Emission Monitors
- MECAIR Dust Collector Cleaning System
- PLUS POINT Filter Press
- KLINKAU Filter Press Plates
- Pressure Vessels

DUST COLLECTOR ACCESSORIES

- NFF Filter Bags
- NFF Pleated Cartridges
- NFF Filter Cages
- GOYEN Diaphragm and Solenoid Valves
- MECAIR Diaphragm and Solenoid Valves
- NFF Rotary and Double Flap Valves
- REITZ Centrifugal Fans

AIR FILTRATION PRODUCTS

- Roll Filter Media
- Paint Booth Filters
- Pleated Pre-Filters
- Medium and High Efficiency Rigid Filters
- Medium and High Efficiency Extended Surface Filters
- Metal Washable Air and Grease Filters
- HEPA and 95% DOP Filters
- Cleanroom HEPA / ULPA Terminal Modules
- Gas Phase and Odor Control
- Framing System and Holding Frames
- UV Lamps for HVAC System

OTHER PRODUCTS

- Airslide Canvas
- Cooling Tower
- Boiler Tubes
- AIRSWEEP Material Activation System
- Reitz Fan

- HEXA Septic Treatment Plant
- Fog Cannon
- FIBC Bulk Bag
- NFF Prefab Warehouse Building System

WET FILTRATION PRODUCTS

- NFF Filter Cloths
- NFF Micron Rated Bag Filters
- NFF Filter Cartridge

PRODUCTS & SERVICES:

In 2006, NFF strengthened its engineering and construction capability by acquiring heavy equipment and venturing on bigger construction projects in power industry for the installations of Electrostatic Precipitators, electro-mechanical equipment and other Steel Structures. PCAB License No. 36936 was first issued on August 22, 2013 for Principal Classification "Mechanical Work" with Category "B".

• Cement	• Coconut Oil	• Food and Beverage	• Hospital	• Paper
• Steel	• Pharmaceutical	• Power	• Rice Milling	• OEM
• Chemical	• Petroleum and Petrochemical	• Wood Processing	• Semiconductor	
• Sugar	• Flour Milling	• Battery Recycling	• Waste Water	

ENGINEERING CAPABILITIES

- Survey and System Audit
 - Air flow testing and measurement
 - System analysis
 - Leak detection testing
 - Duct design and balancing
- Pulse Jet Cleaning Design
- Fabrication Works and Pre-assembly
- Erection and Retrofitting
- Installation Supervision and Commissioning Assistance
- Dust Collector Monitoring and Maintenance
 - Bag replacement
 - Spare parts consignment
 - Preventive maintenance
- Modification and Upgrade
- Seminar on Dust Collector Operation and Maintenance
- Mechanical and Structural Erection Works

SUPPLY AND CONSIGNMENT CONTRACT

- Filter Bags
- Filter Cages
- Airslide Canvas

Filter Cloth Laser Cutting

Filter Bag Automatic Tubing

Filter Cage Fuse Welding

Metal Laser Cutting
